Commissioner for Patents

1. The information disclosure statement filed on December 11, 2002 and refiled on April 20, 2007 fails to comply with 37 CFR 1.98(a)(3) because it does not include a concise explanation of the relevance, as it is presently understood by the individual designated in 37 CFR 1.56(c) most knowledgeable about the content of the information, of each patent listed that is not in the English language. It has been placed in the application file, but the information referred to therein has not been considered. In particular, contrary to applicant's assertions, NO concise EXPLANATION of the relevance, as it is presently understood by the individual designated in § 1.56(c) most knowledgeable about the content of the information, of each patent, publication, or other information listed that is not in the English language. The concise explanation may be either separate from applicant's specification or incorporated therein. Merely pointing to particular lines and pages in a non-English language reference does NOT meet this requirement.
